

# How to Assemble a Large-sized (A4) Classroom Reader

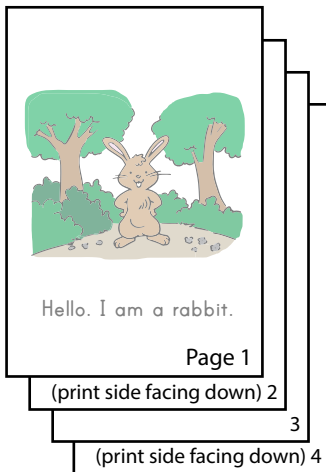

**Step 1:**  
Print out the pages of the reader.

**Step 2:**

Take the front and back cover pages and arrange with the front cover facing up and the back cover facing down.

**Step 3:**

Take all of the pages and stack in order with the blank sides together (so page 1 is face up, page 2 face down, etc.)

**Step 4:**

Now assemble the book - add the front and back cover pages.

**Step 5:**

Staple along the spine. Three staples is usually enough.

**Step 6:**

Finally, use some masking tape along the spine of the reader.

Your reader is now ready!
