Hello there!

Nice to meet you!

I'm Polly. That's P-O-L-L-Y!

Polly the Penguin

About Polly

A

Read the poem.

I know a bird
That cannot fly:
Polly Penguin is its name.
It cannot fly,
But it can swim
With speed that wins it fame!

Penguins live in Antarctic and along the coasts of southern Africa and America. They spend their time on the ice in winter and on rocks in summer. On land they can waddle and hop.

Penguins eat fish, krill and squids. Their legs are short and they have webbed feet. They have flippers - not wings and catch their food in the sea.

A baby penguin is called a chick. The eggs hatch in December when it is warm in Antarctica. Penguins live in groups called colonies to protect their eggs and chicks. They can live up to 20 years.
